### PROFESSIONAL PROFILE

Dynamic Software Engineer and Computer Engineering student with a focus on building robust, logic-driven web applications. Expert in modern JavaScript frameworks and React, with a proven history of developing API-integrated platforms. Currently bridging enterprise IT infrastructure with networking at the Oyo State Secretariat. Driven by a disciplined engineering workflow, evidenced by 300+ GitHub contributions in 2025 and a commitment to continuous open-source innovation.

### TECHNICAL EXPERTISE

**Frontend:** HTML5, CSS3, JS (ES6+), React, Next.js, DOM Manipulation

**Backend:** Supabase, Java, Python, REST APIs (Integration)

**Mobile:** Android Development (Kotlin, Android Studio, Gradle)

**Tools:** Git, GitHub, VS Code, CI/CD Basics

**AI Workflow:** Prompt Engineering, Code Optimization with LLMs

**Current Study:** Data Structures & Algorithms (LeetCode)

### PROFESSIONAL EXPERIENCE

#### IT Support & Networking Intern (SIWES)

March 2026 – Present

Management Information Centre (MIC), Governor's Office, Oyo State Secretariat

- Undergoing practical training in IT operations with a primary focus on enterprise network infrastructure and Cisco networking fundamentals.
- Work alongside system engineers to maintain computer hardware, troubleshoot physical networks, and execute OS/software installations.
- Provide cross-departmental field support, resolving live system issues and ensuring maximum uptime for government workstations.

#### Frontend Developer Intern

March 2026 - Present

Google Developer Groups On Campus (GDGOC) LAUTECH

- Collaborating within the engineering team to build community-focused web applications using Next.js and JavaScript (ES6+).
- Optimizing platform accessibility and user engagement through high standards for UI/UX and frontend performance.

#### Founder & Creative Branding Animator

April 2024 - Present

Power Creative Network

- Created 2D & 3D animations and visual branding campaigns to help businesses communicate effectively.
- Combined technical thinking with creative UI/UX principles for digital storytelling.

### TECHNICAL PROJECTS

#### MindXam [\[VIEW LIVE\]](#)

- Trivia engine using Open Trivia DB API; implemented custom grading logic.

#### Real-Time Weather App [\[VIEW LIVE\]](#)

- Real-time weather dashboard with multi-source API integration and Giphy.

#### CV Builder Pro [\[VIEW LIVE\]](#)

- React-based CV generator with modular state and PDF export functionality.

#### Budget Tracker [\[VIEW LIVE\]](#)

- Fintech dashboard using Chart.js for data viz and LocalStorage for persistence.

#### Utility Suite [\[VIEW GITHUB\]](#)

Built a Task Manager, Digital Library Manager, and Logic Calculator to master advanced DOM manipulation and logic flow.

#### B.Tech – Computer Engineering

2022 – 2027 (In View)

Ladoke Akintola University of Technology, Ogbomoso

### ADDITIONAL INFORMATION

**Languages:** English (Fluent), Yoruba (Native) • **Volunteer:** Tech community events and coding bootcamps • **Hobbies:** Animation, Tech Blogging, Open Source.
